This is not a ticket.

IF IT TAKES A VILLAGE THEN WE'RE THE VILLAGERS

If you have ever heard **Gary Doyle** speak, you know he is an excellent communicator. Over the last 38 years, he has perfected his ability to relate to the community through talk show radio, and live audience. It was never considered work - it was fun. Gary started his radio career in Kingston at CKWS when he was 18, and spent the next 4 decades on the air in Kingston, Renfrew, three cities in Saskatchewan, and Kitchener-Waterloo (1985). His last stint was at 570 News. Gary has spent the last year recovering from a heart attack, learning yet more life lessons. He continues to be the voice of our rival Kitchener Rangers - calling home games on Rogers TV.

Gary is active with Juvenile Diabetes Research Foundation in Waterloo Region, The Waterloo Region Suicide Prevention Council and volunteering with friends at Ray of Hope Community Centre.

Gary's presentation, while peppered with humour, will challenge us to be true leaders, citizens, neighbours and friends.
